

PEACHENA & QUAZE II

PEACHENA & QUAZE II are back on the concert scene, and sounding better than ever! They call it "Funk & Roll," and their dynamic, hi-energy, foot-stomping, funk-rock music will soon make them one of the hottest superbands in black music. They are a powerful attraction on the live circuit, and their debut LP for Arista Records, *Quazar*, established them as a definite hit-making unit.

However, unexpected circumstances resulted in the premature breakup of the original group. Just prior to the release of their *Quazar* LP, they suffered a tragic blow with the sudden death of their discoverer, and producer, **GLENN LAMONTE GOINS**, ex-P-Funk lead singer and guitarist, who died July 30, 1978 of severe complications apparently stemming from an earlier bout with Hodgkins Disease. Worst still, managerial problems marred an otherwise successful tour with *CAMEO*, forcing the breakup.

Fortunately, Peachena, their multi-talented lead singer, never stopped singing. She continued writing, and composing songs, while eventually recording some of her funky originals and made some solo appearances at *THE VILLAGE GATE*, *LEVITICUS*, *THE OZONE LAYER*, and *MELON'S DISCO*, in New York City last year winning many new fans!

Meanwhile Peachena kept in touch with certain members of *Quazar*, waiting for the right time to rejoin forces. Because of the positive impact of their first tour, concert promoters contacted Peachena to "hit the stage" again, resulting in the band's rebirth and new name, **QUAZE II**.

The remaining original members are: Jeff Adams (drums), Darry Dixon (sax), Harvey Banks (guitar and vocals), and Darry deLomberto (percussion). The new members are: Kevin Hawkins (keyboards), Winky Hendrix (bass), and the incredible lead guitarist, Ronnie "Head" Drayton, their bandleader, who has played with some of the best rock bands in showbiz!

Glenn Goins often described them like this: "Their music gets its inspiration from God, ... you can feel the spiritual impetus - their energy, their funky rhythms, all reveal a fundamental message: *The Love of Almighty God!*"

Realizing that Glenn Goins spent all of his last days making them into

a super-tight unit, is one of the main reasons that **PEACHENA AND QUAZE II** have reunited!

They recently made their premier appearance at the Felt Forum in New York City and were well received by the audience as well as the critics! Make sure **YOU** catch their next show!
